The Crawford Gas Ovens are safe. They are lighted in a new way; there is no dangerous pilot light and explosions are impossible. This improvement is patented and very important.

The Damper is automatically opened by opening oven door to light the burners, which cannot be lighted until the door is opened.

> In these Gas Ovens there is an extra set of burners at the top for broiling; a great advantage over the ordinary gas oven, insuring better broiling and great convenience. The Oven Bottoms and Racks are cast iron, and the outer walls are triple-an interlining of asbestos between two sheets of iron, which assists to retain the heat. The use of these Gas Ovens does not

interfere in any way with the operation of the coal range-both can be used at the same time.
